WALDEN INC.

**STEVENS WALDEN INC.**

**WORCESTER, MASS. 01604**

**1/4" DRIVE**

**SET 1/4 PK 17  
17 Pieces**

**CONTENTS**

8 six point, 3 eight point Sockets, 3/16" to 7/16", Reversible Ratchet, Hinge Handle, Cross Bar, Plastic Spinner, 3" Extension. Skin packed in metal box.

**SET 1/4 PK 14  
14 Pieces**

**CONTENTS**

8 six point, 3 eight point Sockets, 3/16" to 7/16", Hinge Handle, Cross Bar, Skin Packed in Metal Box.

**3/8" DRIVE**

**SET 3/8 PK 12  
12 Pieces**

**CONTENTS**

2 six point, 7 twelve point Sockets, Oval Head Reversible Ratchet, Hinge Handle, Skin Packed in Metal Box.

**SET 3/8 PK 20  
20 Pieces**

**CONTENTS**

7 twelve point Regular, 8 twelve point Deep Sockets, 3/8" to 13/16", Round Head Reversible Ratchet, Hinge Handle, Cross Bar, 3" Extension, Universal Joint, Skin Packed in Metal Box.

**Stevens Walden Inc., Worcester, Mass.**

# WRENCH SETS

## 3/8" AND 1/4" DRIVES

**SET 3/8 PM 21**  
21 Pieces

### CONTENTS

6 — 1/4" Drive Sockets 3/16" to 11/32", 1 — 1/4" Drive Spinner, 7 — 3/8" Drive Regular Sockets 3/8" to 3/4", 1 — 13/16" Spark Plug Socket, Reversible Ratchet, 3" Male Extension, Adaptor 3/8" to 1/4", Adaptor — 3/8" Female, 5/16" Set Screw Key in Metal Box.

## 3/8" AND 1/4" DRIVES

**SET 3/8 PM 48**  
48 Pieces

### CONTENTS

8 — 1/4" Drive Hex Sockets 3/16" to 7/16", 3 — 8 point 1/4" to 3/8", 1 Screwdriver Bit, 1 — 6" Extension, 1 — Spinner, 9 — 3/8" Drive Regular 12 point Sockets 3/8" to 7/8", 7 — Deep Sockets 3/8" to 3/4", Reversible Ratchet, Hinge Handle, Speeder Brace, 13/16" Spark Plug Socket, 3/8" to 1/4", 2 — Extensions 3" and 6", Connector, Cross Bar, 6 Combination Wrenches, 3/8" to 11/16", Slip Joint Pliers in Hip Roof Box and Tray.

## 1/2" DRIVE

**SET 1/2 PK 14**  
14 Pieces

### CONTENTS

9 — Regular Sockets 7/16" to 15/16", 1 — 13/16" Deep Spark Plug Socket, Reversible Ratchet, 5" Extension Male, Connector, Skin Packed in Metal Box.

## 1/2" AND 1/4" DRIVES

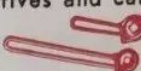

**SET 1/2 S30**  
30 Pieces

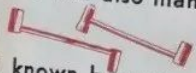

### CONTENTS

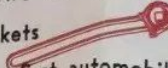

7 — 1/4" Drive Hex Sockets 3/16" to 3/8", 2 — 8 point 1/4", 5/16", Spinner, 11 — 1/2" Drive Sockets 7/16" to 1-1/16", 1 — Deep 13/16" Spark Plug Socket, Reversible Ratchet, 2" Extension, 5 — Open End Wrenches 5/16" to 3/4" in Metal Box.

## Thanks for your interest!

You have seen the latest tools from STEVENS WALDEN, developers of the Socket Wrench, dating back to 1895, which was a year of the horse  and the old steam engine  and the common wrench was a cast iron monkey wrench . A young inventor in Worcester, Eben S. Walden, was busy with a system of Wrenches, novel in design  used for speeding the repair of locomotives and carriages. A ratcheting head set in a wire frame had different sized square and hex holes  for the various nuts and bolts.

Along with his ratcheting wrenches, Mr. Walden was also manufacturing a line of wire handled wrenches with multiple sized sockets on each end . These were in great demand in the bicycle field  where Walden was well known because of his invention of the one piece crank .

With his bicycle socket wrenches and his ratcheting wrenches in production, Walden then worked on a system of combining the two and in the early 1900's came out with the first set of ratchet handles with interchangeable sockets  packed in a solid leather box!

At this time also came  the first automobiles. The repair of these vehicles became big business and the Walden wrench kits on boards were seen everywhere. Individual kits of Speed Up Tools for the Cole, Dort, Durant, Earl, Grant, Gray, Haynes, Jewett, Liberty, Overland, Pierce Arrow, Scripps-Booth, Star, and Stutz, plus all the better known cars and trucks.

During this period of introduction of the Socket Wrench  by Stevens Walden the following tools were also introduced: Four Way Rim Wrench , Combination Box and Open End Wrench , SPINTITE  and GRIP-SPINTITE Wrenches.

Today Stevens Walden is the exclusive manufacturer of SPINTITE and GRIP-SPINTITE Wrenches and a leader in the manufacture and sale of Socket Wrench Sets, Forged Wrenches, and special hand tools. Two main buildings have 200,000 square feet of manufacturing space with the most modern machinery and equipment, to keep you supplied.

## 1/2" DRIVE

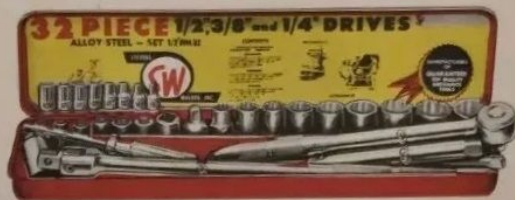

**SET 1/2 S20**  
**20 Pieces**

### CONTENTS

15 — 1/2" Drive 12 point Sockets 7/16" to 1-1/4", Reversible Ratchet Hycar Grip, 15" Hinge Handle Hycar Grip, 6" and 10" Extensions in Big Metal Box.

## 1/2", 3/8" AND 1/4" DRIVES

**SET 1/2 PM 32**  
**32 Pieces**

### CONTENTS

**1/4" DRIVE** — 8 Sockets 3/16" to 7/16", Spinner;  
**3/8" DRIVE** — 5 Sockets 1/4" to 1/2", 3 Male Extensions, Connector, 3/8" Square, 13/16" Spark Plug Socket, Neoprene Insert;

**1/2" DRIVE** — 9 Sockets 1/2" to 1", 1/2" to 3/8", Adaptor, 6" Male Extension, Connector, Reversible Ratchet, Hinge Handle, Metal Box.

## 1/2" DRIVE

**SET 1/2 S26**  
**26 Pieces**

### CONTENTS

16 — 12 point Sockets 7/16" to 1-1/4", Reversible Ratchet, 15" Hinge Handle, Sliding Tee, Speeder, 3 Extensions 2", 5", 10", Ratchet Adaptor, Universal Joint, in Hip Roof Metal Box with Tray.

**SET 1/2 S43**  
**43 Pieces**

### CONTENTS

16 — 12 point Regular Sockets, 7/16" to 1-1/4", 11 — Deep Sockets 1/2" to 1-1/8", 6 Universal Sockets 9/16" to 7/8". Reversible Ratchet, 15" Hinge Handle, Sliding Tee, Universal Joint, Speeder, 3 Extensions 2", 5", 10", Ratchet Adaptor, Hip Roof Metal Box with Tray.

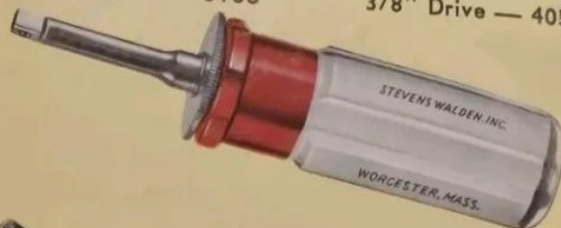

# SPECIAL RATCHETS

## SCREWDRIVER TYPE REVERSIBLE

1/4" Drive — 3156

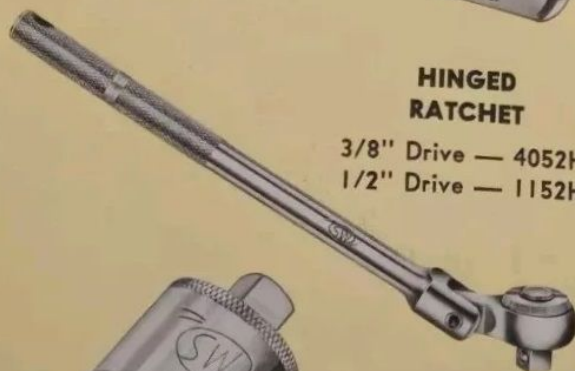

3/8" Drive — 4056

## HINGED RATCHET

3/8" Drive — 4052H

1/2" Drive — 1152H

## REVERSIBLE ADAPTOR

1/4" Drive — 3155

3/8" Drive — 4055

1/2" Drive — 1155

Stevens Walden manufactures over 30 different ratcheting handles for speeding operations. Here are a few samples of the exclusive models.

SP

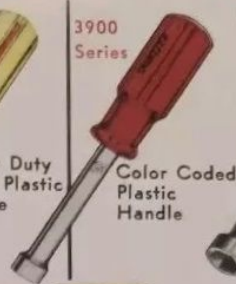

## Spintite Wrenches

3000 Series

Heavy Duty Large Plastic Handle

3900 Series

Color Coded Plastic Handle

3400 Series

Wood Handle

## 3800 SERIES

Chuck Type Handle with interchangeable shanks.

## GRIP-SPINTITE

**3600 SERIES** — The GRIP-SPINTITE — Grips and drives nuts or bolts of any material. Sleeve pushes forward on tapered shank to close collet type socket — pulled back it releases. No springs, clips or magnets.

## Another Walden First!

The wrench that works like a screwdriver, SPINTITE, developed by Walden in early 1900, is now the standard for wrenches in the fast assembly and repair of small appliances.

**3000 SERIES** — Deep Drilled — Deep Socket — The deluxe wrench.

**3400 SERIES** — Standard Depth Socket—Wood Handles.

**3900 SERIES** — Standard Depth Socket — Color coded handles.

# REFRIGERATION TOOLS

The use of tubing in the refrigeration, air conditioning and automotive field has created a great demand for these special tools for cutting, flaring, bending, and swedging tubes of all kinds.

**BW1 — BASIN WRENCH** — For repairs around sinks, tubs, BW1—10", BW5—14", BW-5 Set—BW-5 Wrench with 3 sizes of jaws.

**FT195 — FLARING TOOL** — For smooth, flaring of copper, brass, aluminum, plastic tubing from 3/16" to 1/2".

**TC1 — TUBE CUTTER** — Cuts and reams tubing 1/8" to 1-1/8" diameter. Alloy castings for rugged frame and alloy steel cutter and reamer knife are hardened for long life.

**TB-8 — TUBE BENDERS** — Tightly wound spring steel wire, slip on for making bends in copper, steel or aluminum tubing. 6 sizes: 1/4-TB8, 5/16-TB10, 3/8-TB12, 7/16-TB14, 1/2-TB16, 5/8-TB20.

**3119 — REFRIGERATION RATCHET** — Drop forged single action ratchet with 3/16" and 1/4" squares in handle for valve stems and 1/2" hex for header valves. 3119 — 1/4" Drive; 4059 — 3/8" Drive.
